SPRING CLEANING CHECKLIST!

Keep in Mind...

While cleaning rooms that pets frequent, keep pet height in mind. We have all seen the weirdo pug that licks the legs of the chair. Wipe down and disinfect everything below pet height!

Vet visits can be stressful for pets, and pets plus stress mean a lot of blown fur. Fur has a way of finding its way into every nook and cranny, so be sure you are checking behind furniture and in corners for fuzz-balls.

You're BUSY! Keeping tidy throughout the year will help when the big spring clean comes around. Cleaning the clinic from top to bottom is a daunting task, so breaking it up over the course of a few days or even weeks can be very helpful.

With VHA, you can find everything you need to keep your clinic squeaky clean! Check out the VHA Warehouse, our friends over at Dalco for the supplies you need to keep your clinic looking and feeling fresh!
