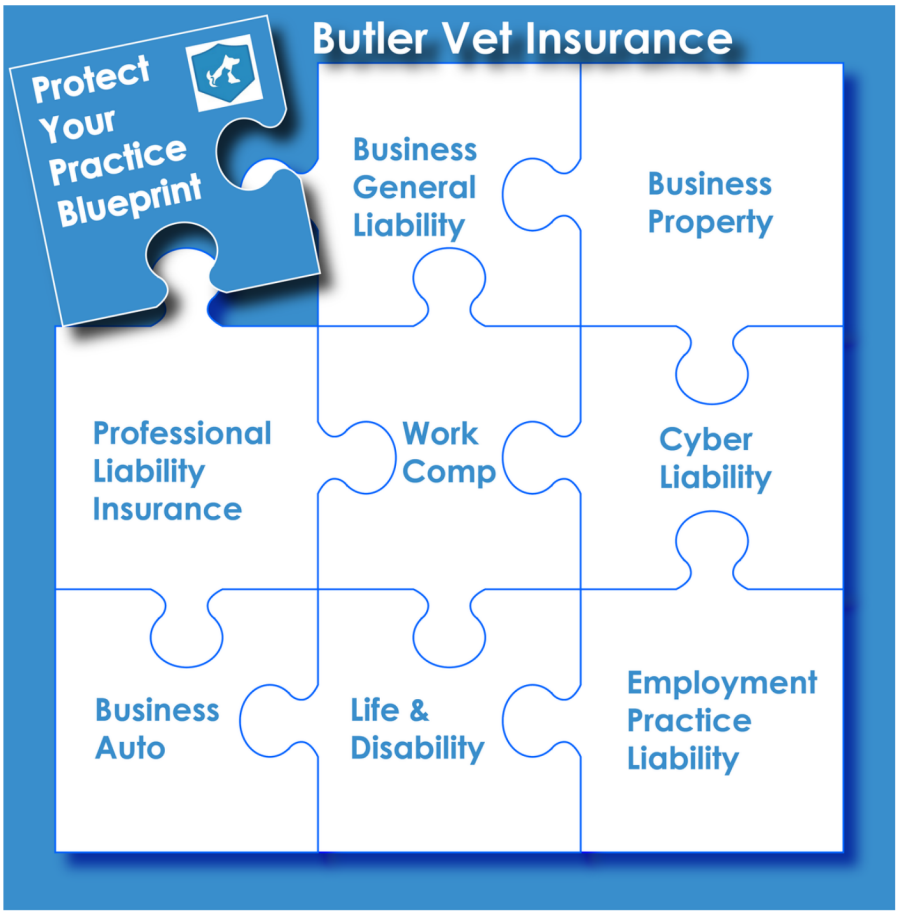
PROTECT YOUR PRACTICE BLUEPRINT



MAKE SURE YOUR PRACTICE IS PROPERLY PROTECTED

What is your biggest source of stress when it comes to insuring your practice?

When asking this question of practice owners and managers the answer we hear most often is that you don't understand the insurance products you are already purchasing and what coverages they need.

Veterinarians start their practice to help animals but quickly find out that there is so much more to running their business and insurance is just one piece of a confusing puzzle that can be costly if done wrong.

Use the Butler Vet Insurance Protect your Practice Blueprint To Make Sure You Have The Coverage You Need!

"I highly recommend Bill Butler & Butler Vet Insurance for all your veterinary practice insurance needs!"

I was first introduced to Bill Butler during a VHA Webinar on Worker's Compensation Insurance. I have been a veterinary practice owner for over 15 years but did not have a good understanding of our insurance policies, especially Worker's Compensation. Bill's presentation was well organized and provided me with a much better understanding. I invited him to do a full insurance review for my practice, after a thorough discussion of my individual needs, we switched all our policies to Butler Vet Insurance. I highly recommend Bill Butler & Butler Vet Insurance for all your veterinary practice insurance needs!
